

Wonderful! One last

question: How do you

Interviwee Kishan kumar Suresh Kumar

> Good morning! Thank you.

My name is kishan kumar , and I have a Bachelor's degree in AI&DS from M.KUMARASAMY COLLEGE OF ENGINNERING. I've been working as a software engineer for the past three years, primarily focusing on web development and backend systems.

I make a lot of projects related to data science.some my projects are stock recommandation system, students carrier path guidance.

I believe in maintaining a positive attitude and viewing challenges as opportunities for growth. I'm not afraid to seek guidance from mentors or colleagues when faced with a difficult situation. I

approach problems with a systematic mindset, breaking them down into manageable tasks and finding creative solutions. Overall, I'm resilient and adaptable, which I believe are essential qualities in any work environment.
